PREPARING FOR COVID-19 ON-FARM CHECKLIST FOR FARMERS

It's only a matter of time before a positive case of COVID-19 turns up on-farm. Is your business prepared if one does?

It's important you have a plan to ensure your farm can continue to operate if you, an employee, or a family member contracts COVID-19. You may be required to leave your property quickly.

Having a plan will help give you peace of mind that others will be able to step in and help.

This document is intended to help you create a plan in the event you are required to leave your property and are unable to look after your animals, staff and business. The detail contained in your plan is unique to your own property and circumstances to allow family, friends or neighbours to come in and tend to the immediate needs of your livestock.

In the situation that a COVID-19 positive case or close contact is located on your farm, it will also help the Ministry of Health decide the best place for you and those around you to isolate. Having the right information and a plan could help you or your staff stay on farm.

Use the questions below as a guide to work out how ready you are to deal with a case of COVID-19 on your farm. Circle or tick the answers that apply to you. It is important that all staff and family have a copy of the completed plan as well as an easy to access copy available.

We have broken the plan into four sections. These are:

Section 1: About your farm — How it works.

Section 2: COVID-19 on farm – the next 14 - 21 days

Section 3: Information to assist the Medical Officer of Health

Section 4: Personal wellbeing

We encourage you to involve your staff (if you have them) and your family with this planning. Please remember, this checklist is not exhaustive and you can add anything that will assist your planning.

Supported by:

Section 1: Your Farm

Information to assist someone coming onto your farm to undertake daily duties if you are unable to.

List key industry contacts who will visit the farm or provide advice Some suggestions below								
Staff:								
Feed supplier:								
Vet:								
Processor:								
Transport company:								
Fuel supplier:								
Electrician:								
Stock agent:								
Consultant:								
Mechanic: Shearing contractor:								
Milk company:								
Seed company:								
Other:								
Back up team (i.e. friends, neighbours, family)	Name:	Number:						
Dogs' names, feed requirements and location of dog food (include pets here):								
Animal welfare — Storage locations and instructions (medicines, covers, lifters, calving gear etc.):								
How the water / irrigation system works:								
Fuel and chemical location and storage instructions:								
Instructions for other systems: power, ventilation control, automated feeding:								
Plant and machinery — Tips and tricks (Motorbike, tractor, dairy platform etc.):								
Access to planning tools (wifi password, coverage details etc.):								
To minimise the risk of COVID-19 can you please:			Yes	No				
Ask everyone to wear a face mask while on farm								
Supply hand sanitizer for use before doing anything on farm								
Ensure physical distancing be maintained — 1m minimum								
Minimise contact with suppliers, where possible contactless drop off/pick up — create a zone?								
Communicate your farm protocols to suppliers/visitors when pick up/delivery is required								
Minimise physical sharing of documents — email photo and txt docs through where possible								
Support all team members and their close contacts to be vaccinated								
Scan in when off farm for supplies/living life								
Isolate bubbles between yourself and relief staff or work in teams								
Use gloves in enclosed spaces/wipe down high traffic surfaces with cleaning agent								
Use Virkon spray or equivilent on gear between users/pickup gear from service providers								
Attached to this plan: ☐ Farm Management Plan ☐ Farm Hazard Map ☐ Health & Safety Plan ☐ Animal Health Plan
